PROFESSIONAL SUMMARY

Web developer with over a year of professional experience working on a Shopify store for a French fashion brand. My day-to-day work covers storefront updates, bug fixes, and building custom theme sections with Shopify Liquid, HTML, CSS and JavaScript. I also have hands-on experience with the MERN stack (React, Node.js, Express and MongoDB) from my training and personal projects, and I am currently completing a BS in Software Engineering.

CORE SKILLS

- Shopify and Shopify Liquid
- Shopify theme customization
- WordPress
- HTML5, CSS3, JavaScript (ES6+)
- React.js, Tailwind CSS, Bootstrap
- Next.js, TypeScript, React Native (basic)
- Node.js, Express.js
- MongoDB, REST API integration
- PHP
- Git, GitHub, VS Code
- Render (deployment)
- AI tools: ChatGPT, Claude, Cursor

PROFESSIONAL EXPERIENCE

Shopify Developer · **Zero Waste Studio, Karachi** *May 2025 – June 2026*

Client: TRUE TRIBE, Paris, France (French fashion brand)

- Maintain and update the TRUE TRIBE Paris Shopify storefront, handling content changes, product page updates and requested feature changes.
- Build custom theme sections from scratch and modify existing sections using Shopify Liquid, HTML, CSS and JavaScript.
- Troubleshoot and resolve storefront issues, including layout and functionality problems, to keep the store running smoothly.
- Work with APIs and integrations where the project required them, and support UI, usability and performance improvements on the storefront.

LATEST PROJECT

AquaLedger — Water Delivery Business Management SaaS

Full Stack Web Application · Personal Project · Deployed -- https://aqua-ledger-six.vercel.app/

A SaaS platform built to help mineral water suppliers manage customers, bottle deliveries, billing, payments, and business records from one dashboard.

Next.js – React – Prisma – MySQL
